📇 SUMMARY

I'm frontend Developer from Uttar Pradesh, India, I build apps with a focus on **React, Redux, Javascript ,Nodejs, MongoDB** I enjoy turning complex problems into simple, **beautiful and intuitive designs**. A Software Engineer, who loves to solve problems.

I am having an **experience of building high-performing, responsive, beautiful web applications** to deliver a unique, intuitive user experience that works, also keen interest in UI/UX with some nice designing skills. I am a well-trained a teammate who loves to share ideas and prioritizes communication in order **to achieve goals within the set deadlines**. I enjoy being challenged and working on projects that require me to step outside of my comfort zone.
